Application/Control Number: 10/721,568

Art Unit: 2611

DETAILED ACTION

Allowable Subject Matter

Claims 1 - 11 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art fails to teach a method of managing communications among a plurality of premise installations in a cable communications distribution system comprising the steps of determining an attenuation parameter for reach of a plurality of components in the distribution system, determining an isolation parameter between branches coupled to the at least one splitter, calculating an overall signal attenuation over a selected frequency band between premise installations on different ones of the plurality of branches and responsive to the overall signal attenuation exceeding a minimum isolation threshold value between first and second branches, assigning a frequency within the selected frequency band to a premise installation on each of the first and selected branches.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2611

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Anderson et al (5,903,829) – RF equalizer module

Milbrandt (6,633,545) – Determining data rate capacity of subscriber lines

Brown (6,282,405) – Telecommunications distribution network

Jeffrey (6,567,981) – A/V signal distribution network

Flickinger et al (5,901,340) – Wideband signal distribution system

Wax et al (5,745,159) – Aircraft distribution system

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Vivek Srivastaya whose telephone number is (703) 305-4038. The examiner can normally be reached on Monday – Friday from 9 am to 6 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chris Grant can be reached on (703) 305-4755. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
